

## Solitaire

This game is played one person at a time. It was played with marbles, pegs or counters.

### HOW TO PLAY:

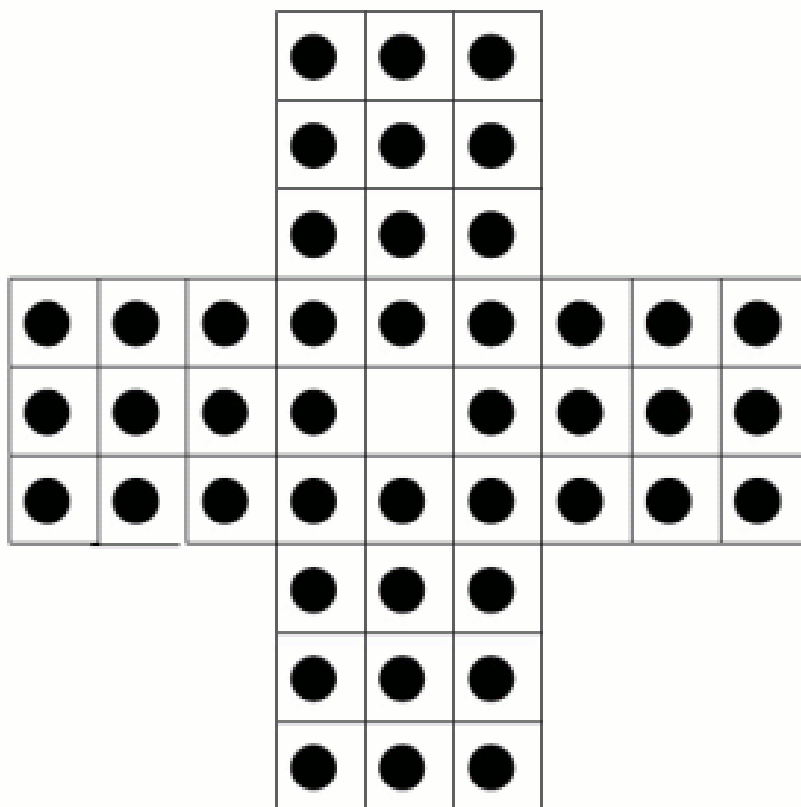

1. You start by taking a marble which can jump over it's neighbour into the empty space.
2. The marble that was 'jumped over' can be taken off the board.
3. Carry on jumping over marbles one by one.
4. Try to take off all the marbles until only one is left.

### RULES:

- Jumps can be made in any direction.
- You can only jump over one marble at a time, as long as there is an empty space beside it.
- You keep going until you can no longer make a jump.

### TIPS:

Plan your moves – don't leave a marble stranded by itself without a marble next to it to jump over.
